Our vision

We strive to improve the lives of the individuals we serve by lending help directly. The dedication from our team, volunteers, donators and countless other supporters is what empowers Acres of Hope to make a positive difference in the lives of many.

West – Afrika Liberia

Liberia, one of the poorest African countries, has suffered brutal wars spanning decades, leaving the intire populations suffering and thousands of children orphaned. Development and Sustainable Programs are very much needed. Acres of Hope is partnering with local organizations to assist humanitarian efforts taking place in Liberia.

Project 1: AoH Rock Hill Community School

Built by Acres of Hope

In Rock Hill children crush rock for the living, sometimes they are just 5 years old. The family often live from less than 1 € a day.

Liberia is one of the poorest countries in the world. Our goal is to provide a better future for these underprivileged children.

AoH support 300 children who used to work in the quarry with 5 € every month to go to AoH Rock Hill Community school.

Anyone who wants to help one of the AoH children with their school fees can do this by depositing € 60 into AoH account

A mobile team of midwives takes motobike to remote villages for medical assistance.

We built Gbarnga Clinic, a finished project that was handed over to the local staff

under Elisabeth in february 2019.

Zahn Zeeye Community Clinic is the second local clinic that AoH is building in Nimba County deep in the Liberian jungle. This project is running in collaboration with the local government.

With our Belgian medical team, AoH offer assistance during project visits in collaboration with local medical staff.
